github.com/ishu7219

A motivated and results-oriented Computer Science & Engineering (IoT) student with a strong foundation in Salesforce Development, Web Development, and Software Engineering. Skilled in building responsive web applications and developing scalable solutions using modern technologies. Quick learner with strong analytical, problem-solving, and teamwork abilities. Passionate about creating innovative software solutions and continuously improving technical expertise.

Profile Summary

- Aspiring Software Engineer and Salesforce Developer with hands-on experience in frontend and full-stack development.
- Proficient in Salesforce, HTML, CSS, JavaScript, React.js, and Core Java.
- Experienced in developing responsive web applications, API integrations, debugging, and software deployment.
- Strong understanding of Object-Oriented Programming, Database Management, and Software Development Life Cycle.
- Built projects including Smart AI-Driven Wildlife Intrusion Detection Framework, Quiz Application, To-Do List Application, and Hotel Menu CLI.
- Excellent communication, collaboration, and problem-solving skills with the ability to work effectively in team environments.

Certifications

- Meta Front-End Development
- Salesforce Developer Virtual Training
- Campus Recruitment Training (CRT)

Skills

Category	Skills
Salesforce	Apex, SOQL, SOSL, Triggers, LWC, Flows
Programming	Java, JavaScript
Web Development	HTML, CSS, JavaScript, React.js
Database	MySQL
Tools & Platforms	GitHub, VS Code, Postman
Concepts	OOP, SDLC, REST APIs
Soft Skills	Communication, Teamwork, Leadership, Problem Solving

Internship Experience

weIntern Pvt Ltd | Dec 2025 – May 2026

Full Stack Web Development Intern

- Built and maintained **5+ responsive web pages** using HTML, CSS, JavaScript, and React.js.
- Integrated **5+ REST APIs** and backend services, improving data processing efficiency.
- Resolved **25+ frontend and backend issues**, improving application reliability and user experience.
- Collaborated with a team of 4 developers to successfully deliver multiple project modules within deadlines.
- Performed testing and resolved 25+ defects, improving application stability and deployment success.

Education

Year	Degree / Qualification	Institution	CGPA/ Percentage
2022 – 2026	Bachelor of Engineering in Computer Science & Internet of Things	Yashwantrao Chavan College of Engineering, Nagpur	8.2/10
2019 – 2021	Higher Secondary Certificate (HSC)	Municipal secondary science college (Arvi)	89 %
2018 – 2019	Secondary School Certificate (SSC)	Municipal high school (Arvi)	82.40 %

Project Details

Engineered Smart AI-Driven Wildlife Intrusion Detection Framework

Technologies: IoT, Machine Learning, Sensors

- Engineered an intelligent wildlife intrusion detection system for crop protection.
- Implemented machine learning techniques to identify animal movements.
- Generated real-time alerts to reduce crop damage and improve monitoring efficiency.

Built Quiz Application

Technologies: HTML, CSS, JavaScript

- Created an interactive browser-based quiz platform.
- Implemented dynamic question loading and real-time score calculation.
- Designed a user-friendly and responsive interface..

Created To-Do List Application

Technologies: HTML, CSS, JavaScript

- Built a task management application with add, update, and delete functionality.
- Used local storage to maintain task persistence.
- Designed a clean and responsive user interface

Hotel Menu CLI

Technologies: Python

- Built a command-line restaurant ordering system.
- Implemented menu management, order processing, and bill generation.
- Improved order handling through automated calculations.

Achievements

- Successfully completed a Full Stack Development Internship and contributed to real-world web development projects.
- Built multiple academic and personal projects demonstrating software development and problem-solving skills.
- Actively preparing for Salesforce Developer and Software Engineer roles through hands-on coding practice and project development.
